Dearest Luisa,

Enclosed are two video cassettes containing what I hope might be some scenes that are useable by Portuguese TV. It would be lovely if you were able to look at them before handing them over to the TV station! There are some good scenes of children and landscapes in particular, but other things, too. I hope that the quality is good enough, and that the TV station might be in a position to make a financial contribution of some kind ..... !!

IMPORTANT: The cassettes contain some scenes (i.e shots of the alemao, personal messages for OMA etc) which must not be used by the TV station. These scenes are marked clearly on the accompanying summary of cassette contents. Please stress to whoever you give them to the importance of these scenes NOT BEING BROADCAST. As noted, they should feel free to use the shots of Bobby Xavier, although I suspect that because it is a copy the quality will not be sufficiently good.

OMA's letters to the Prime Minister and Minister of Foreign Affairs are to be delivered by JRH, and the interview for Adelino Gomes he has asked whether you would mind delivering to him at O Publico.

I think that's all for today. Talk to you on the email! Beijinhos e abraços da,
